Statement

I am interested in the scientific and mathematical aspects of Computer Science, which I am presently applying in the social network analysis and recommender systems fields. I find specific motivation in formalizing real-world problems into mathematical statements and developing principled solutions that result in effective methods when brought back to the application domain.

My current research is in the scope of recommender systems in the financial domain, focusing on the recommendation of assets which change value over time, like stocks, funds or bonds. Previously, I worked in the intersection between social networks and recommender systems, devising new people-to-people contact recommendation algorithms and considering new perspectives beyond accuracy in the development and evaluation of recommendation methods, such as the effect of link recommendation on the evolution of structural network properties and the flow of information through the network.

Professional Experience

Post-doctoral Research Associate   *Since November 2021*
Terrier Team (http://terrierteam.dcs.gla.ac.uk/)
IDA Section, University of Glasgow, Scotland, United Kingdom
- Research on recommender systems in the financial domain, portfolio optimization, knowledge graphs and profitability forecasting.
- **Supervisors:** Richard McCreadie, Craig Macdonald and Iadh Ounis.
- Level 4 project supervision:
    - Lunny, L. iTrade: The financial portfolio generation tool. August 2023.
    - Mousa, J. TradeMind. August 2023.
- Organization of the IR reading group.

PhD Student   *June 2015 to May 2021*
Information Retrieval Group (http://ir.ii.uam.es)
Universidad Autónoma de Madrid, Spain
- Research on people recommendation in social networks, social network analysis (link prediction, structural metrics, information diffusion), recommendation objectives beyond accuracy and multi-armed bandits for recommendation.
- Lab teaching of "Information search and mining", 4th year BSc on Computer Science, January to May 2018, 2019, and 2020.
- Lab teaching of "Analysis of algorithms", 2nd year BSc on Computer Science, September 2019 to January 2020.

- BSc thesis supervision:
  - Miranda, B. "Information Diffusion Modeling on Twitter", June 2018.
  - Amor, A. "Link prediction and recommendation in social networks", June 2019.
  - Lopez, E. "Multi-armed Bandits in Recommendation", June 2019.

Visiting researcher   *May 2019 to July 2019*

Terrier Team (http://terrierteam.dcs.gla.ac.uk/)

University of Glasgow, Scotland, United Kingdom

- Research on information retrieval models for contact recommendation in social networks.
- **Supervisors:** Craig Macdonald and Iadh Ounis.

Programmer   *June 2013 to August 2013*

Every View S.L., Madrid, Spain

Spanish Language Route Project

- Development of the project webpage, using Joomla, MySQL and PHP, mainly web services and payment platforms.
- Development of computer game functionalities, using Unity3D and C#.

Education

PhD in Computer Science and Telecommunications   *October 2016 to May 2021*

Universidad Autónoma de Madrid

PhD thesis: "Contact Recommendation in Social Networks: algorithmic models, diversity and network evolution".

Score: Outstanding (*Cum Laude* mention)

Supervisor: Prof. Pablo Castells (pablo.castells@uam.es)

MSc in ICT Research and Innovation   *September 2015 to February 2017*

Universidad Autónoma de Madrid

Specialization: Computational Intelligence

GPA: 9.32/10

4 Mentions of Honor: "Information Retrieval", "Machine Learning: Theory and Applications", "Numerical and data intensive computing" and "Temporal Information Processing".

MSc Thesis: "Contact recommendation: Effects on the evolution of social networks"

MSc in Computer Science   *September 2015 to February 2017*

Universidad Autónoma de Madrid

GPA: 9.52/10

4 Mentions of Honor: "Advanced topics in Networking and Internet", "Embedded, distributed and ubiquitous systems", "Graphics, Multimedia and Virtual Environments", "Interactive Systems Development".

Double BSc in Computer Science and Mathematics   *September 2010 to June 2015*

Universidad Autónoma de Madrid

GPA: 9.23/10 (ranked in top 3% of my year)

28 Mentions of honor: including "Artificial Intelligence", "Neurocomputing", "Information Search and Mining" and "Fundamentals of Machine Learning".

BSc Thesis: "Metasearch engine with session management and interleaving A/B testing".

Grants, scholarships and awards

Excellence scholarship in BSc Studies, Regional Government of Madrid.   *2012 – 2015 (every year)*
Research scholarship in MSc studies, Universidad Autónoma de Madrid. *October 2015 – October 2016*
PhD scholarship (FPI Grant), Universidad Autónoma de Madrid.   *March 2017 – September 2018*
PhD scholarship (FPU Grant), Spanish Government.   *September 2018 – May 2021*

Research projects

Voxpopuli: efficient analysis of reputation, propagation and recommendation in social media environments   *June 2014 – December 2016*
*Reference number***:** TIN2013-47090-C3-2-P
Institution: Universidad Autónoma de Madrid
Funding body: Spanish government
PI: Pablo Castells Azpilicueta
Role: pre-doctoral researcher

Recommendation in social media: context, diversity and algorithmic bias
Reference number: TIN2016-80630-P   *December 2016 – December 2019*
Institution: Universidad Autónoma de Madrid
Funding body: Spanish government
PI: Pablo Castells Azpilicueta, Iván Cantador
Role: pre-doctoral researcher

Beyond static recommendation: equity, interaction and transparency   *June 2020 – May 2021*
Reference number: PID2019- 108965GB-I00
Institution: Universidad Autónoma de Madrid
Funding body: Spanish government
PI: Pablo Castells Azpilicueta, Iván Cantador
Role: pre-doctoral researcher

Infinitech   *November 2021 – March 2023*
Reference number: 856632
Institution: University of Glasgow
Funding body: European Comission Horizon 2020
PI: Iadh Ounis, Craig Macdonald, Richard McCreadie
Role: post-doctoral research associate

PPC-FI: Personalized portfolio construction for financial investments   *April 2023 – July 2023*
Reference number: EP/X525716/1
Institution: University of Glasgow
Funding body: UKRI EPSRC Impact Acceleration Account
PI: Javier Sanz-Cruzado
Role: primary investigator

FAR-AI: Deployment of AI-Based Financial Asset Recommendation System *August 2023 – October 2023*

    Reference number: EP/X525716/1
    Institution: University of Glasgow
    Funding body: UKRI EPSRC Impact Acceleration Account
    PI: Javier Sanz-Cruzado
    Role: primary investigator

ICURe Explore programme *October 2023 – January 2024*

    Institution: University of Glasgow
    Funding body: Innovate UK
    Role: entrepreneurial lead

Research interests

Social Networks: analysis, link prediction, information diffusion.
Information Retrieval: recommender systems, evaluation, novelty and diversity.
Reinforcement learning: multi-armed bandits.
Financial technologies: profitability forecasting, robo-advisors

Technical skills

Programming languages: Java, C, Python, PHP, MatLab.
Databases: MySQL, PostgreSQL, QuestDB.
Operating systems: Microsoft Windows (XP, Vista, 7, 8, 10), Unix (Ubuntu, CentOS).
Other tools: Maven, Git, Docker.
General purpose software: LaTeX, Microsoft Office (Word, Excel & PowerPoint).

Languages

Spanish: Native Speaker.

English: Working proficiency.

- **Certificate of Advanced English** – Cambridge University *July 2018*
  Level 2 Certificate in ESOL International.
  Common European Framework of Reference (CEFR) C1 Level.
- **Graded Examination in Spoken English, Grade 11** – Trinity College London *June 2008*
  Level 2 Certificate in ESOL International (Speaking and Listening).
  CEFR C1.2 level.

French: Basic notions.

Other activities

Students' representation:

- Course delegate *2011 to 2016*
- BSc students' general delegate *2014 to 2015*
- Students' representative in "New Curricula" commission *2014 to 2015*
- PhD students' representative in Computer Science department council *2017 to 2021*

RankSys framework: Java 8 Recommender Systems framework (http://ranksys.org).   *Since 2017*
   Maintenance of the framework and development of new functionalities.

RELISON framework: Java social network analysis and recommender Systems framework (https://ir-uam.github.io/RELISON/).   *Since 2021*
   Development and maintenance of the framework.

Infinitech Hackathon   *16th-17th June 2022*
- Team Infinithree – with Edward Richards and Lubingzhi Guo
- **Position:** 1st
- Developed profitability prediction algorithm with knowledge graph embeddings.

Infinitech Hack Challenge   *24th November 2021*
- Team Infinithree – with Maanasa Shrikrishna and Edward Richards
- **Position:** 1st
- Developed profitability prediction algorithm with sentiment analysis extracted from news.

Invited talks
- **Invited talk** at the Universidad Española de Educación a Distancia, titled "Contact recommendation in social networks: beyond accuracy" (in Spanish, July 2018).
- **Invited talk** at the HaiVis group at the Pontificia Universidad Católica de Chile, titled "Contact recommendation in social networks using search methods" (in Spanish, March 2021).
- **Invited talk** at the University of Glasgow IR seminars, titled "Recommending people in social networks: algorithmic models and network diversity" (February 2022).
- **Invited talk** at the University of Glasgow IR seminars, titled " On Transaction-Based Metrics as a Proxy for Profitability of Financial Asset Recommendations" (October 2022).
- **Guest lecture** on evaluation and production of recommender systems at the recommender systems course at the IE University (in Spanish, April 2022).

Reviewer
- **Reviewer of** ACM Transactions on Information Systems journal (ACM TOIS)
- **Reviewer of** the User Modeling and User-Adapted Interaction journal (UMUAI)
- **Reviewer of** the ACM Transactions on the Web journal (ACM TWEB)
- **Reviewer of** the AI Communications journal
- **Reviewer for** the latest-breaking results track for the 14th ACM Conference on Recommender Systems (RecSys 2020)
- **Subreviewer for** The Web Conference 2021 (TheWebConf 2021)
- **Short paper program committee member for** the 44th International ACM *SIGIR* Conference on Research and Development in Information Retrieval (SIGIR 2021)
- **Program committee member for** the 15th ACM Conference on Recommender Systems (RecSys 2021)
- **Program committee member** for the 45th ACM Conference on Research and Development in Information Retrieval (SIGIR 2022)
- **Program committee member** for the 44th Conference on Information Retrieval (ECIR 2022)
- **Program committee member for** the 16th ACM Conference on Recommender Systems (RecSys 2022)
- **Program committee member for the** 46th Conference on Information Retrieval (ECIR 2024)

Organization

- **Organizer** of a workshop titled **"***What's my next investment? Automated recommendations for investors?***"** at the University of Glasgow, as part of the Scottish Fintech Festival (October 2023).
- **Organizer** of the IR reading group at the University of Glasgow (October 2022 – now)
- **Student volunteer** at the 13th ACM Conference on Recommender Systems (RecSys 2019)
- **Local committee member / volunteer** of the 46th Conference on Information Retrieval (ECIR 2024).
